from 1972

RPE Srl is a **worldwide reference in the solenoid valve, pressure restrictor, filter and flow meter industry**, thanks in great part to the technology we have developed and the continuous evolution of international food and electrical certifications.

**Founded in 1972** through the conception of our current President (Mr. Giuliano Ravazzani), who had the vision and drive to create one of the most successful and reputable solenoid valve manufacturers in the world.

Today RPE designs and develops every component for all the solenoid valves we manufacture and offer. RPE products have been **sold and distributed in Italy and around the world for over 40 years.**
